INTRODUCES BILL BILL GOES TO SENATE

FINANCE COMMITTEE REPORTS
ALDRICH CURRENCY MEASURE TO THE SENATE.

NO MINORITY REPORT.

Document Is Somewhat Trimmed to Meet Exigencies and Belief Is It Will Pass.

Washington, Jan. 30.—Senator Aldrich's currency bill, trimmed somewhat to fit the exigencies was brought into the senate today, vouched for by all the republican members of the Finance committee.

Only three of the five democrats were present—Senators Daniel, Bailey and Teller. They made no formal report in opposition to the Aldrich bill, but Senator Bailey announced in the senate that "at least a portion of the minority members of the committee" would propose a substitute at the proper time.

This is accepted as meaning that Senators Bailey and Teller will offer their bill, unless in the meantime the democrats, by conference or caucus, should agree on some measure.

The prospect of such agreement is not bright, but the hope of it has not been abandoned. A number of democratic senators, among them Senator Bailey, believe that another effort should be made to get together. Some of them are even in favor of holding a caucus and permitting the majority to bind the whole.

It is not believed that Senator Bailey is among those who favor a caucus, for when this course was first proposed he deprecated the idea and it was largely because of opposition encountered in him and Senator Teller that the project was abandoned.

The advisability of holding a conference is now being canvassed and may be decided tomorrow.

Report Is Delayed.

That part of Secretary Cortelyou's report carrying the facts called for by the Senate has not yet been made public. It has been put in type, but is being withheld by the government printer until Secretary Cortelyou shall have revised the proofs. It was said this afternoon that the remainder of report might be ready for distribution tomorrow.

The criticism of Secretary Cortelyou's course in sending out his argument two days in advance of publication of facts upon which it is based was more severe today than it was yesterday, probably because of discovery that the argument was in the offices of a New York newspaper eighteen hours before it was sent to the senate.

The charge is that Secretary Cortelyou has resorted to a trick to bias the minds of the jury before presenting the evidence to them.

Democrats declare that the statement, though cleverly prepared, is a very vulnerable document.

Culberson's Opinion.

"I think," Senator Culberson said today when asked his opinion of it, "the response of Secretary Cortelyou to the Senate resolution, prepared, or thoroughly revised by Secretary Root makes the best that was possible out of a very bad case. In spite of the master hand in its preparation, it is, in its more important features, fatally weak in its admissions, inconsistencies and false deductions."

The democrats seem to think Secretary Cortelyou has in fact filled their magazine with ammunition, and in consequence they are preparing to make a violent assault on him because of his course during the panic.

They expect to show that the panic was brought on by Wall street interests and that, because of the Secretary's complaisance, these very interests were permitted to profit enormously by their unpatriotic work.

The debate will probably be begun next week, though the proper consideration of the Aldrich bill will not commence until Feb. 19.

While the opposition to it on the part of republicans from the central west is formidable, it is generally believed it will pass both bodies expeditiously.

Speaker Cannon has promised that he will put it through the house with little delay, even if he should have to resort to a caucus.

OKLAHOMA PROHIBITION ENFORCEMENT MEASURE NOW IN THE UPPER HOUSE.

IMMEDIATE VOTE OPPOSED

Senator Billups' Inquiry as to Quick Action on House Amendments Causes Delay Until Today.

Guthrie, Ok., Jan. 30.—Under Speaker Murray's ruling of yesterday that the prohibition enforcement bill of itself carried the emergency clause which needs not to be ratified by the House separately from the bill, the measure in question was solemnly deposited in the Senate late this afternoon. It bears the title of Senate Bill No. 61, and its House record shows that on final passage there were 87 affirmative and 18 negative votes, which is two-thirds of the House membership.

As soon as its delivery had been announced, Senator Billups, whose name appeared as the bill's author when it left the Senate, before the Christmas holidays, wanted immediate consideration and asked the president of the senate if a motion to concur or not in the house amendments would be in order. Senator Davis, who introduced a prohibition bill Tuesday, opposed consideration, submitting that it should take the status of a new measure and be referred to a committee. Lieut. Gov. Bellamy refrained from ruling on the question and by agreement it went over until tomorrow afternoon.

The Senate recalled from the house the bill by Senator Stewart regulating telegraph and telephone companies, the desire being to make a change in the Jim Crow section added to the bill by Senator Graham, providing for separate booth and phones. Provision will now be made to compel separate accommodations in towns where the people apply to the corporation commission for relief and not otherwise. A resolution memorializing congress to purchase the Indian buildings in the state and donate them to the state.

Most of the session was consumed in considering the jury bill by Senators Taylor and Blair of the Senate and Mr. Durham and Mr. Japp of the house. And amendment was adopted establishing among the qualifications of a juror those who can read and write English or Indian languages.

Some apprehension was expressed that the Jim Crow rule could not be extended to juries, but Senator Taylor announced that another qualification for jury service was to be an elector and when the election bill passed the legislature he was of the opinion the qualifications to be required of an elector would meet the requirements.

The House passed to a third reading the anti-cigarette bill, which forbids the possession of cigarettes or "the makin's" as one member termed cigaret paper and tobacco; also forbids the giving of tobacco in any form to a person under 16 years of age. The house placed an amendment to the bill which forbids any person to smoke a tobacco cigarette in Oklahoma, the penalty for which is a fine from \$5 to \$25.

The committee bill appropriating \$210,000 for the support of the state insane asylum at Fort Supply was partly adopted. The items were taken up separately and an organized effort made to lower the amounts. This continued until the appropriation of \$300 per year for farm hands was reached, when sentiment went the other way and the amount was increased to \$365.

The debate brought out that the state was now paying \$10,000 per month to a private asylum company for the care of about 600 insane patients.

BRYAN SPEAKS

Companion Against Wrongful Use of Campaign Contributions.

Washington, Jan. 30.—"An election is a public affair and participation in politics is a civic duty. All arguments used in elections should be used publicly, and all means employed to secure the election of or to defeat a candidate should be means which the one using them would not be ashamed to have the world."

This epitomized the views of William J. Bryan on the subject of publicity of campaign contributions as expressed today before the house committee on election of president and vice president. In addition to the full membership there were present Perry Belmont and Samuel Gompers and other labor leaders.

William J. Bryan on the subject of publicity of campaign contributions as expressed today before the house committee on election of president and vice president.

In addition to the full membership there were present Perry Belmont and Samuel Gompers and other labor leaders.

Mr. Bryan declared that reforms only come when abuses are recognized. "Not until there is an evil to be remedied," he said, "does one think of a remedy." The thing to be remedied in American politics, he continued, is the use of money to secure control of the

government, "the money being advanced by those antagonistic to the public pulse."

"When a man resorts to secrecy," he said, "it must be because he has something to gain that he does not want the world to know, or that he distrusts the intelligence or patriotism of the people."

"We have everything requisite for human happiness in Oklahoma," said Senator Gore to a New York newspaper interviewer, "and we don't get anything from the east except the sunrise."—Oklahoman.

ROOSEVELT TO WHIP PARTY INTO ACTION

President Prepares Series of Messages Expected to Be Sensational.

Washington, Jan. 30.—With a cat o' nine tails the president will begin tomorrow to whip this party into wakefulness from the lethargy that has been imposed upon it by Speaker Cannon and those other leaders who have decreed that considerations of party welfare take precedence of the country's legislative needs.

A message which he will send to congress tomorrow will be the first of a series, all of them to spur to action.

The president is not in sympathy with the stand-pat policy adopted by Speaker Cannon and other republican leaders. He wants the reforms which he urged at the beginning of the session enacted.

The argument that it would be perilous to the party on the eve of an election to undertake the large tasks submitted last December makes no appeal to him.

Either he does not agree with them as to what is expedient, or he has no regard for considerations of that kind.

Men who are probably well informed declare that these messages will make the most sensational series of papers ever written by the president.

Lawson Predicts.

Thomas W. Lawson, who seems to have got pretty good advance information of the caliber of the president's ammunition made these prospective messages the subject of flaring advertisements in this morning's New York papers and the stock market, whether in dread of the messages themselves or in fright occasioned by Lawson's Jeremiahical prophecy, was appreciably affected.

Whether so in themselves the circumstances and purposes of these messages must be regarded as sensational, especially if considered with respect to their possible consequences.

Already it is charged that in deciding to call the attention of the country to the recreance of his party, the president is merely adopting an adroit method of insinuating that his continuance in office is essential to the accomplishment of his reform measures.

Whether this is so or not it is certain that in rebelling against the supineness of his party's leaders the president will arouse more antagonism than has yet existed between him and them.

Meanwhile the Democrats have about resolved to espouse some of the more popular of the president's reform measures and taunt the republicans with their failure to enact them.

They will challenge the republicans to act on the recommendations of their own president.

It is known that Mr. Bryan is favorable to his course as a measure of party strategy. He is tonight in conference with Senator Culberson, John Sharp Williams, and Representative Clayton of Alabama, chairman of the democratic caucus in the house, and the result of this conference is likely to be a decision to press several of the measures recommended by the president so as to call the country's attention that they are Roosevelt, rather than republican policies.

This course was suggested at Senator Newlands' dinner Monday night, and the president, it is known, was promptly advised of what was suggested.

Whether his purpose to send these messages to congress was prompted by the councils of the democrats may be left to individual opinion.

MEMORIAL GOES TO CONGRESS.

Contest Over Control of Eastern Part of State School System Believed to Be Settled.

Guthrie, Ok., Jan. 31.—It is believed the contest between Superintendent Benedict of the Indian schools and Superintendent Cameron of the State Educational Department over the control of the school system in the eastern half of the state has been adjusted by the passage of a memorial to congress, which was sent to both houses of the legislature this afternoon by the governor.

Congress recently recommended an appropriation of \$150,000 for Indian Territory schools, manifesting an intention to continue the Interior Department's supervision for the next year or two.

It is stated that the memorial was agreed to by both superintendents this afternoon. Two hours later it was returned to the governor's office, having passed both houses of the legislature.

The memorial in effect makes a proposition to congress to continue so long as Indian funds and public moneys of the federal government are ap-

propriated for public schools, in what were the Five Civilized Indian Tribes outside of the incorporated towns, and for the purpose of uniformity in granting teachers' certificates, the state will add one member to the state board of education, who may be nominated by the secretary of the interior. Three members of the state board to examine applicants for common school certificates may be named by the secretary, also one member of the county examining boards in counties of what was Indian Territory.

It is proposed that under state authority, schools for the joint attendance of whites and Indians shall be maintained each year until the district tax levy and the per capita apportionment of state fund is exhausted, whereupon the superintendent, representing the secretary of the interior, shall assume control and conduct the school with the money allotted from the Indian funds and the federal government, so as to provide for at least eight months of school in each district. The state will appropriate the full per capita apportionment from the state funds, based on the scholastic population, and the federal government is to apportion to the districts where there are the allotted number of pupils, an amount from the Indian National funds equaling the per capita to be derived from the school district taxation and the state fund.

In view of the government's withholding allotments of lands for taxation, it is suggested in the memorial that the federal government appropriate \$2 per capita for the school children of all the districts outside the incorporated towns.

The memorial was sent to Washington tonight.

STATE WINS BOUT WITH NATURAL GAS OPERATORS

Muskogee, Okla., Jan. 30.—Judge Ralph Campbell today handed down a decision in the case of the state of Oklahoma vs. Connelly and Owen, in which the defendants were applicants to get to the federal courts the injunction brought against them by the state preventing them from piping natural gas out of the state into Kansas. The decision is that unless the supreme court of the United States holds otherwise, the state of Oklahoma can control its supply of natural gas and can prevent corporations or individuals from piping it out of the state.

This is one of the most important legal questions in the state. The first official act of Governor Haskell was to wire the sheriff and county attorney of Nowata county to prevent Connelly and Owen piping gas across the state line from their wells near Caney to consumers on the Kansas side. The district court of Nowata county followed the order with an injunction, and Connelly and Owen applied to have the injunction transferred to the federal courts where they hoped to have it dissolved. Connelly and Owen have taken the matter up with the secretary of the interior, representing that the government, as guardian of the Indians from whom the gas is taken is duty bound to see that the Indians get a market for the gas, despite state laws. The secretary has ordered Judge Ryan, his special representative and Commissioner Wright to investigate the matter.

Connelly and Owen hope to bring the matter direct to the supreme court of the United States by getting the federal government to interfere with the state order. Judge Campbell holds that congress has not the right to set aside the acts of state legislatures, unless such acts are unconstitutional and that the only relief the defendants have is to get the supreme court to decide that the state has passed an act that is unconstitutional, and until that is done the injunction of the state courts stands.

Quick Work by Dan Capid.

Quite a surprise was rendered our town on the 18th when the marriage of Miss Vera Carr to Morgan Milton Awkins took place. The ceremony was performed by Rev. G. W. Jefferson at the Tidwell hotel. The groom is well known here, and is well liked by all who know him, he is in the mercantile business in this town. He came here from Chickasha about two months ago. The bride is the beautiful and accomplished daughter of Mr. and Mrs. Carr of Ada, where she has a host of friends. She came to this town about a month ago to visit her cousin Mrs. F. J. Stubbs. Almost immediately upon the arrival the couple met. It was a case of love at first sight. They are now at home at the Tidwell hotel, congratulations are now in order and the Record wishes them everlasting happiness.—Blanchard Record.

IMPRESSIONS OF AMERICAN CHARITY.

A notable German philanthropist who has been investigating charitable and social institutions of the United States says: "The first point that strikes us as a contrast to what we observe in English settlement work is the large number of women settlement workers. They are so much in the majority that the number of men is almost negligible, appearing only supplementary. This is characteristic America. Generally speaking, the women are better educated than the men; besides, except those who make social work their profession, men devote far less time to matters of this kind than women do."

CIVIC LEAGUE WORK.

The Civic League of St. Louis, Mo., has recently completed an investigation of housing conditions in that city. The tenement problem is only beginning to be felt, but problems of overcrowding, cellar living, outbuildings, inadequate and inferior plumbing and ventilation were discovered. These can be met without great difficulty now if the people will bestir themselves. Each of our Southern cities should have a civic league for this work, and these conditions should be remedied in their beginning.

IN New York.

Miss Bennett and Mrs. MacDonell are at present in New York, studying various phases of institutional work, especially the immigrant homes and settlement work among foreigners. Unless the railroad management increases, the road is tied up. The manufacturer must calculate the number of the machines by the driving power of the engines, and every enlargement must come in motive power. So we must develop in missionary work, and no small part of our task is to seize the strategic locations. We have number of strategic points in our Southland upon which we must move. Pray for our officers as they study these lines of work.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Restorative—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that nervous favor to Dr. Shoop and his Restorative. Without that original and highly vital medicine, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. Wheeler tomorrow, Saturday and will hold a parlor meeting at 2 p. m. Saturday with Mrs. R. E. Haynes. Not only W. C. T. U. ladies, but every one interested in temperance is cordially invited.

For Burglary.

Robt. Grave, a negro was bound over Thursday in the sum of \$750.00 for burglarizing the Hardware store of McKoy Bros. at Stonewall. Constable Cal Bolen brought the prisoner in today and he is now confined in the county jail. Assistant Prosecuting Attorney J. W. Dean was the states attorney in the case.

Seriously Burned.

Mrs. Chas. Russell, residing 12 miles south was seriously, perhaps fatally burned at her home Wednesday morning. Her clothing caught fire from the fireplace and being unable to extinguish them herself she ran out of the house and in the direction of her husband who was in the field near by, but before she reached him she was apparently overcome and turned again toward the house.

Mr. Russell reached here presently, however, and tore the blazing garments from her body. The entire body is seriously burned, and chances for her recovery are poor.

Miss Florence Furman.

A little item is hereunder reproduced from Gov. Haskell's New State Tribune social column, which suggests to the home friends of a sweet little Ada Miss that away from home among strangers, she admirably sustains her home reputation.

"A charming little visitor to the capital city last week was Miss Florence Furman of Ada, who, with her father, Judge Henry M. Furman, spent Friday in Guthrie. Miss Florence is only 11 years of age, but she has the dignity of a young lady and her sweet, friendly manner won her many friends during her brief visit."

TO PURCHASE ROAD?

Rumored that Oklahoma Road May Sell Track to Rock Island.

Chickasha, Okla., Jan. 30.—It was rumored here today that the Rock Island intended to purchase the track of the new Oklahoma Central road as soon as the track was completed from Purcell to Chickasha. Six miles of track are to be laid.

The substantiation for the story is the building of a "Y" by the Oklahoma Central to connect with the Rock Island and the unofficial announcement that the Oklahoma Central will use the Rock Island terminal facilities.

The proposed route of the Oklahoma Central is from Atoka to Chickasha through Ada and Purcell. It crosses the eastern Rock Island from McAlester a few miles south of Coalgate. The western terminus is in Chickasha on the Rock Island main line.

WEST SAYS \$35,000 NEEDED.

Attorney General Mentions Report That Appropriation Will Be Cut.

Guthrie, Ok., Jan. 30.—According to a statement made in the office of the Attorney General today he is in receipt of information that the appropriation asked for his department will be reduced by the legislature. Mr. West said:

"In order to transact the business of the people it will be absolutely necessary that I be given at least \$35,000, and in my opinion any one who opposes that, even though unintentionally, will be acting in the interest of people who are trying to despoil this state."

The Appropriations committee has not announced what the recommendation for the attorney general will be.

GUARDS WRONG IN THE FEDERAL COURTS

Oklahoma Senator Offers Measure to Stop "Government by Injunction."

Washington, Jan. 30.—Senator Gore today introduced a bill prohibiting the granting of restraining orders by federal courts in cases between employer and employee unless it is necessary to prevent irreparable injury to the property rights of the party making the application. The bill also provides that no agreement between employees can be held by a court as a conspiracy unless property rights are endangered.

Money for Education.

Guthrie, Ok., Jan. 30.—Officers and members of the board of the various education institutions of Oklahoma met today with the Appropriations Committee of the Legislature, asking the passage of an emergency appropriation bill, which will give them some money. Since statehood these institutions have not been able to draw a dollar. Chairman Whitehurst of the House committee said tonight that a bill will be offered carrying about \$175,000 for immediate relief. A bill calling for \$210,000 has already been introduced.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation, even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Always demand Dr. Shoop's Cough Cure Sold by G. M. Ramsey.

WOULD PAY KICKPOO'S LOSS.

Bill Introduced to Reimburse Reds for Land Lost by Removal.

Washington, Jan. 30.—Senator Clapp today introduced a bill appropriating \$300,000 to reimburse the Mexican Kickapoo Indians for lands of which they were deprived several years ago through removal from Kansas to Indian Territory.

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

Ring Watches Popular.
Swiss watchmakers are reported to be busy filling English and American orders for finger ring watches. The ring watch, though little seen, is no novelty. The manager of an old London watch-making firm says that he saw them more than 14 years ago. Queen Victoria had three or four. The simplest ones—a plain gold ring with the watch inserted—cost about \$100, but with diamonds or other stones, \$5,000 to \$10,000 may be paid.

"What in the world is the matter, Harold?" anxiously inquired the pretty girl. "Why, you seem too nervous to sit down a minute."
"You'll have to pardon me," responded Harold Hatband, with an eye on the window, "but—er—I just saw your father prowling around with a bird gun."
"Oh, nonsense! Why, father likes you. Didn't I hear him say that you were good enough to eat?"
"H'm! That's just the reason why he might try to pepper me."

BANISHED

Coffee Finally Had to Go.

The way some persons cling to coffee even after they know it is doing them harm, is a puzzle. But it is an easy matter to give it up for good, when Postum Food Coffee is properly made and used instead.

A girl writes: "Mother had been suffering with nervous headaches for seven weary years, but kept drinking coffee."

"One day I asked her why she did not give up coffee as a cousin of mine had done who had taken to Postum. But Mother was such a slave to coffee she thought it would be terrible to give it up."

"Finally, one day, she made the change to Postum, and quickly her headaches disappeared. One morning while she was drinking Postum so freely and with such relish I asked for a taste."

"That started me on Postum and I now drink it more freely than I did coffee, which never comes into our house now."

"A girl friend of mine, one day, saw me drinking Postum and asked if it was coffee. I told her it was Postum and gave her some to take home, but forgot to tell her how to make it."

"The next day she said she did not see how I could drink Postum. I found she had made it like ordinary coffee. So I told her how to make it right and gave her a cupful I made, after boiling it fifteen minutes. She said she never drank any coffee that tasted as good, and now coffee is banished from both our homes." Name given by Postum Co., Battle Creek, Michigan.

Japanese Methods.

A grim story of Japanese ingenuity comes from the Island of Formosa, formerly Chinese territory, but now a possession of the Japanese, who are waging war against the savages of the interior. These are represented to be of the ferocious order, the head-hunting variety of barbarians who are relentless in pursuit of enemies and to whom accordingly it is deemed useless to show mercy in time of hostilities. At least it is represented that very effective means have been taken to bring the savages to terms. As the story goes, whenever a band of the insurgents can be located a strong barbed-wire fence is constructed all around the area, and is heavily charged with electricity. Then the Japanese troops advance, the head-hunters falling back before them. The result is inevitable. If the savages face the Japanese they are killed by rifle fire. If they continue to flee until they bring up against the wire fence they are shocked to death by electricity. Certainly a few applications of that sort of medicine will be effective on the patient. Before such scientific warfare the occupation of the head hunter is gone. And if he persists the head hunter goes himself.

Revolutionists in Russia may be punished but not cured, and the aristocrats among them hold to their principles even more pertinaciously than do the representatives of lower classes. Dispatches record that Mme. Breshkovskaya, a woman 70 years old and one of the first aristocratic converts to the terrorist propaganda, has been cast into prison in St. Petersburg for distributing terrorist literature. She was sent to Siberia in the early seventies, but succeeded in escaping. The experience, however, only strengthened her revolutionary ideas. As in France in the time of the revolution, it is the fiery determination of the women that does much to keep the spirit of rebellion alive.

Princess Louise of Orleans was married to Prince Charles of Bourbon in England recently, in the presence of the king and queen of Spain and nearly 40 other members of royal families. She is the youngest daughter of the late Comte de Paris, who with his brother and uncle served on the staff of Gen. McClellan in the civil war in America. The count's history of the war has been translated into English, but he and his family have never stirred the national imagination as did Lafayette, that other Frenchman who fought with American troops.

They are shipping apples from Portland, Ore., to Vladivostok, Russia, on the opposite side of the Pacific, and the fruit brings \$7.50 per bushel. Of course the apples are carefully selected and packed, but the fact that such prices can be obtained fully warrants the trouble. When an American product as perishable as apples can be shipped 10,000 miles across the water and sold at a big profit it should be encouragement to try the same process with other articles. There are hundreds of things which the United States can supply, and the field is waiting to be improved.

There will be music in the air when the big battleship fleet is not engaged in naval practice. No less than 26 pianos with pianolas were taken along on the ships, having been furnished by private subscription for the decoration of officers and men. That gives at least one instrument to each ship, and some of the vessels will have two pianos with mechanical attachments. And as a full supply of both classic and popular music goes along there isn't a doubt that the boys will have some delightful times. The pianolas will play when the guns do not.

A recent chemical investigation by the New York health department discloses the pleasing intelligence that bologna sausage and liverwurst are all that they should be. Frankfurters are uncertain, however, because some of them are seasoned with borax or sulphite. In view of the doubt that was cast on these delicacies some months ago this information will be welcomed by would-be consumers whose faith was undermined. As for a little borax, there might be worse things in sausage!

Our navy certainly is a wonder. One hundred men from each of the battleships which paused at the Island of Trinidad were given shore leave and there were no brawls. Can other nations blame us for pointing with pride?

King Leopold has sent to New York for display a large collection of what are said to be very valuable and interesting exhibits from the Congo. So far as reported no scarred and mangled natives are among them.

WORK WEAKENS KIDNEYS.

The Experience of Mr. Woods Is the Experience of Thousands of Others.

Bernard P. Woods of Jackson street, Lonaconing, Md., says: "Hard work and heavy lifting weakened my kidneys. I was tired every morning and my limbs stiff and sore. Dizzy spells and headaches were frequent, and the kidney secretions much disordered."

This continued for fifteen years and until I began using Doan's Kidney Pills. Then I improved steadily until cured, and naturally, I recommend them strongly."

Merely a Plain Statement.

The principal was called before the school board. "Professor Mentor," said the president, "Miss Squirming complains that she was grievously insulted by Mr. Dennis, who visited her class last Friday. What do you know about it?" "As you are aware, gentlemen," explained the principal, "Mr. Dennis is a poor man and the father of a very bad boy. This boy receives deserved punishment daily. Mr. Dennis simply told Miss Squirming that he couldn't afford to have her wear out his son's pants. It was a poor interpretation of a just protest."

ITCHING HUMOR ON BOY

His Hands Were a Solid Mass, and Disease Spread All Over Body—Cured in 4 Days By Cuticura.

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Cuticura Ointment and anointed him with it. I did this every evening and in four nights he was entirely cured. Mrs. Frank Donahue, 208 Fremont St., Kokomo, Ind., Sept. 16, 1907."

Rather Equivocal.

Uncle Morton, an aged negro, who had been a slave in the days before the civil war, was a retainer in the household of an Atlanta family. He was something of a philosopher, and a good deal of a diplomat. One day the waitresses, two young mulattos, were chaffing him.

"Uncle Morton," one of them said, "who do you like best, Belle or me?" The gray-headed negro looked first at one then at the other, and said with a tone of indecision: "It am too tedious to say."

A very stout person named Gray was asked why he stood in this way. "It is," he replied, "a matter of pride. For it makes me look taller, they say!"

REMINDED HIM OF HOME.

New Yorker Saw Beauty in Sign, Where Maiden Lady Could Not.

A party of tourists was being shown around Ciudad Juarez, the little Mexican town just across the Rio Grande from El Paso, Texas. Every one was delighted with its picturesqueness, and in particular a maiden lady, who went into raptures about each new sight.

"It is all so quaint," she said. "These adobe houses, the old church, the narrow streets, the little plaza, those dreadful-looking men wearing sombreros; everything breathes the spirit of an old-world civilization. It is so different from our United States."

"That's so," assented a New York man who had been listening. "For instance, where in all the world could you find anything so antique, so full of inherent beauty, so charged, as it were, with the essence of pure joy, as that sign over there." He pointed toward a whitewashed mud house on whose exterior was painted:

"BIGGEST BEER IN TOWN, 5c."

The woman eagerly turned to look. Then she froze the horrid man with a glance and did not speak to him again during the whole trip.

TO CURE A COUGH OR COLD.

Doctor's Prescription Checks an Acute Cold in a Day and Cures Chronic Coughs.

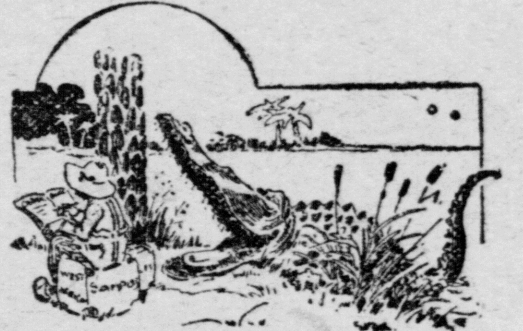

The following formula is a never failing remedy for coughs or colds:

Two ounces of glycerine, one-half ounce of Concentrated oil of pine, one half pint of good whisky, mix and shake thoroughly each time and use in doses of a teaspoonful to a tablespoonful every four hours.

This, if followed up, will cure any cough that is curable or break up an acute cold in 24 hours. The ingredients all can be gotten at any drug store.

Concentrated oil of pine comes put up for medicinal uses only in half ounce vials sealed in tin screw top cases designed to protect it from heat and light. Other oils of pine are insoluble and are likely to produce nausea and cannot give the desired results.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

Writers and Employers.

Bernard Shaw remarked recently: "Milton took £5 (\$20) for 'Paradise Lost' because he could not get any more. A very dapper looking young man entered a Chicago hotel a few days ago, followed by a middle-aged man who seemed to be just a little careless concerning his personal appearance. When he had stepped aside the other man reached for the pen and under Mr. Tyler's name wrote: "John Smith MDDCCCLXIX."

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

This woman says that sick women should not fail to try Lydia E. Pinkham's Vegetable Compound as she did.

Mrs. A. Gregory, of 2355 Lawrence St., Denver, Col., writes to Mrs. Pinkham:

"I was practically an invalid for six years, on account of female troubles. I underwent an operation by the doctor's advice, but in a few months I was worse than before. A friend advised Lydia E. Pinkham's Vegetable Compound and it restored me to perfect health, such as I have not enjoyed in many years. Any woman suffering as I did with backache, bearing-down pains, and periodic pains, should not fail to use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

INTRODUCES BILL BILL GOES TO SENATE

FINANCE COMMITTEE REPORTS
ALDRICH CURRENCY MEAS-
URE TO THE SENATE.

NO MINORITY REPORT.

Document Is Somewhat Trimmed to
Meet Exigencies and Belief Is It
Will Pass.

Washington, Jan. 30.—Senator Aldrich's currency bill, trimmed somewhat to fit the exigencies was brought into the senate today, vouched for by all the republican members of the Finance committee.

Only three of the five democrats were present—Senators Daniel, Bailey and Teller. They made no formal report in opposition to the Aldrich bill, but Senator Bailey announced in the senate that at least a portion of the minority members of the committee would propose a substitute at the proper time.

This is accepted as meaning that Senators Bailey and Teller will offer their bill unless in the meantime the democrats by conference or caucus should agree on some measure.

The prospect of such agreement is not bright but the hope of it has not been abandoned. A number of democratic senators among them Senator Bailey believes that another effort should be made to get together. Some of them are even in favor of holding a caucus and permitting the majority to bind the whole.

It is not believed that Senator Bailey is among those who favor a caucus, for when this course was first proposed he deprecated the idea and it was largely because of opposition encountered in him and Senator Teller that the project was abandoned.

The advisability of holding a conference is now being canvassed and may be decided tomorrow.

Report Is Delayed.

That part of Secretary Cortelyou's report carrying the facts called for by the Senate has not yet been made public. It has been put in type, but is being withheld by the government printer until Secretary Cortelyou shall have revised the proofs. It was said this afternoon that the remainder of report might be ready for distribution tomorrow.

The criticism of Secretary Cortelyou's course in sending out his argument two days in advance of publication of facts upon which it is based was more severe today than it was yesterday probably because of discovery that the argument was in the offices of a New York newspaper eighteen hours before it was sent to the senate.

The charge is that Secretary Cortelyou has resorted to a trick to bias the minds of the jury before presenting the evidence to them.

Democrats declare that the statement though cleverly prepared is a very vulnerable document.

Calhoun's Opinion.

I think, Senator Calhoun said today when asked his opinion of it, the response of Secretary Cortelyou to the Senate resolution, prepared, or thoroughly revised by Secretary Root makes the best that was possible out of a very bad case. In spite of the master hand in its preparation, it is in its more important features, fatally weak in its admissions inconsistencies and false deductions.

The democrats seem to think Secretary Cortelyou has in fact filled their magazine with ammunition and in consequence they are preparing to make a violent assault on him because of his course during the panic.

They expect to show that the panic was brought on by Wall street interests and that, because of the Secretary's complaisance, these very interests were permitted to profit enormously by their unpatriotic work.

The debate will probably be begun next week, though the proper consideration of the Aldrich bill will not commence until Feb. 10.

While the opposition to it is, the fact of republicans from the central west is formidable. It is generally believed it will pass both bodies expeditiously.

Speaker Cannon has promised that he will put it through the house with little delay, even if he should have to resort to a caucus.

IMMEDIATE VOTE OPPOSED

Senator Billings' Inquiry as to Quick
Action on House Amendments
Causes Delay Until Today.

Guthrie, Ok., Jan. 30.—Under Speaker Murray's ruling of yesterday that the prohibition enforcement bill of itself carried the emergency clause which needs not to be ratified by the House separately from the bill, the measure in question was solemnly deposited in the Senate late this afternoon. It bears the title of Senate Bill No. 61, and its House record shows that on final passage there were 37 affirmative and 18 negative votes, which is two-thirds of the House membership.

As soon as its delivery had been announced, Senator Billings whose name appeared as the bill's author when it left the Senate, before the Christmas holidays wanted immediate consideration and asked the president of the senate if a motion to concur or not in the house amendments would be in order. Senator Davis, who introduced a prohibition bill Tuesday, opposed consideration, submitting that it should take the status of a new measure and be referred to a committee. Lieut. Gov. Bellamy refrained from ruling on the question and by agreement it went over until tomorrow afternoon.

The Senate recalled from the house the bill by Senator Stewart regulating telegraph and telephone companies, the desire being to make a change in the Jim Crow section added to the bill by Senator Graham providing for separate booth and phones. Provision will now be made to compel separate accommodations in towns where the people apply to the corporation commission for relief and not otherwise. A resolution memorializing congress to purchase the Indian buildings in the state and donate them to the state.

Most of the session was consumed in considering the jury bill by Senators Taylor and Blair of the Senate and Mr. Durham and Mr. Japp of the house. And amendment was adopted establishing among the qualifications of a juror those who can read and write English or Indian languages.

Some apprehension was expressed that the Jim Crow rule could not be extended to juries but Senator Taylor announced that another qualification for jury service was to be an elector and when the election bill passed the legislature he was of the opinion the qualifications to be required of an elector would meet the requirements.

The House passed to a third reading the anti-cigarette bill, which forbids the possession of cigarettes or 'the makin's' as one member termed cigarette paper and tobacco, also forbids the giving of tobacco in any form to a person under 16 years of age. The house placed an amendment to the bill which forbids any person to smoke a tobacco cigarette in Oklahoma the penalty for which is a fine from \$5 to \$25.

The committee bill appropriating \$210,000 for the support of the state insane asylum at Fort Supply was partly adopted. The items were taken up separately and an organized effort made to lower the amounts. This continued until the appropriation of \$300 per year for farm hands was reached when sentiment went the other way and the amount was increased to \$365.

The debate brought out that the state was now paying \$10,000 per month to a private asylum company for the care of about 600 insane patients.

Ham J. Bryan on the subject of publicity of campaign contributions as expressed today before the house committee on election of president and vice president. In addition to the full membership there were present Perry Belmont and Samuel Compers and other labor leaders.

Mr. Bryan declared that reforms only come when abuses are recognized. Not until there is an evil to be remedied, he said, "does one think of a remedy." The thing to be remedied in American politics, he continued, is the use of money to secure control of the

When a man resorts to secrecy, he said, it must be because he has something to gain that he does not want the world to know or that he distrusts the intelligence or patriotism of the people.

ROOSEVELT TO WHIP PARTY INTO ACTION

President Prepares Series of Messages Expected to Be Sensational.

Washington, Jan. 30.—With a cat o' nine tails the president will begin tomorrow to whip this party into wakefulness from the lethargy that has been imposed upon it by Speaker Cannon and those other leaders who have decreed that considerations of party welfare take precedence of the country's legislative needs.

A message which he will send to congress tomorrow will be the first of a series, all of them to spur to action. The president is not in sympathy with the stand-pat policy adopted by Speaker Cannon and other republican leaders. He wants the reforms which he urged at the beginning of the session enacted.

The argument that it would be perilous to the party on the eve of an election to undertake the large tasks submitted last December makes no appeal to him.

Either he does not agree with them as to what is expedient, or he has no regard for considerations of that kind.

Men who are probably well informed declare that these messages will make the most sensational series of papers ever written by the president.

Lawson Predicts.

Thomas W. Lawson, who seems to have got pretty good advance information of the caliber of the president's ammunition made these prescriptive messages the subject of daring advertisements in this morning's New York papers and the stock market, whether in dread of the messages themselves or in fright occasioned by Lawson's Jeremiah prophecy, was appreciably affected.

Whether so in themselves the circumstances and purposes of these messages must be regarded as sensational, especially if considered with respect to their possible consequences.

Already it is charged that in deciding to call the attention of the country to the recurrence of his party, the president is merely adopting an adroit method of insinuating that his continuance in office is essential to the accomplishment of his reform measures.

Whether this is so or not it is certain that in rebelling against the simplicity of his party's leaders the president will arouse more antagonism than has yet existed between him and them.

Meanwhile the Democrats have about resolved to espouse some of the more popular of the president's reform measures and to tamt the republicans with their failure to enact them.

They will challenge the republicans to act on the recommendations of their own president.

It is known that Mr. Bryan is favorable to his course as a measure of party strategy. He is tonight in conference with Senator Culberson, John Sharp Williams, and Representative Clayton of Alabama, chairman of the democratic caucus in the house, and the result of this conference is likely to be a decision to press several of the measures recommended by the president so as to call the country's attention that they are Roosevelt, rather than republican policies.

This course was suggested at Senator Newlands' dinner Monday night, and the president, it is known, was promptly advised of what was suggested.

Whether his purpose to send these messages to congress was prompted by the councils of the democrats may be left to individual opinion.

MEMORIAL GOES TO CONGRESS.

Contest Over Control of Eastern Part of State School System Believed to Be Settled.

Guthrie, Ok., Jan. 31.—It is believed the contest between Superintendent Benedict of the Indian schools and Superintendent Cameron of the State Educational Department over the control of the school system in the eastern half of the state has been adjusted by the passage of a memorial to congress, which was sent to both houses of the legislature this afternoon by the governor.

Congress recently recommended an appropriation of \$150,000 for Indian Territory schools, manifesting an intention to continue the Interior Department's supervision for the next year or two.

It is stated that the memorial was agreed to by both superintendents this afternoon. Two hours later it was returned to the governor's office, having passed both houses of the legislature.

The memorial in effect makes a proposition to congress to continue so long as Indian funds and public moneys of the federal government are ap-

propriated for public schools, in what were the Five Civilized Indian Tribes outside of the incorporated towns, and for the purpose of uniformity in granting teachers' certificates, the state will add one member to the state board of education, who may be nominated by the secretary of the interior. Three members of the state board to examine applicants for common school certificates may be named by the secretary, also one member of the county examining boards in counties of what was Indian Territory.

It is proposed that under state authority, schools for the joint attendance of whites and Indians shall be maintained each year until the district tax levy and the per capita apportionment of state funds is exhausted, whereupon the superintendent, representing the secretary of the interior, shall assume control and conduct the school with the money allotted from the Indian funds and the federal government, so as to provide for at least eight months of school in each district. The state will appropriate the full per capita apportionment from the state funds, based on the scholastic population, and the federal government is to apportion to the districts where there are the allotted number of pupils, an amount from the Indian National funds equaling the per capita to be derived from the school district taxation and the state fund.

In view of the government's withholding allotments of lands for taxation, it is suggested in the memorial that the federal government appropriate \$2 per capita for the school children of all the districts outside the incorporated towns.

The memorial was sent to Washington tonight.

STATE WINS BOUT WITH NATURAL GAS OPERATORS

Muskogee, Okla., Jan. 30.—Judge Ralph Campbell today handed down a decision in the case of the state of Oklahoma vs. Connelly and Owen, in which the defendants were applicants to get to the federal courts the injunction brought against them by the state preventing them from piping natural gas out of the state into Kansas. The decision is that unless the supreme court of the United States holds otherwise, the state of Oklahoma can control its supply of natural gas and can prevent corporations or individuals from piping it out of the state.

This is one of the most important legal questions in the state. The first official act of Governor Haskell was to wire the sheriff and county attorney of Nowata county to prevent Connelly and Owen piping gas across the state line from their wells near Carey to consumers on the Kansas side. The district court of Nowata county followed the order with an injunction, and Connelly and Owen applied to have the injunction transferred to the federal courts where they hoped to have it dissolved. Connelly and Owen have taken the matter up with the secretary of the interior, representing that the government, as guardian of the Indians from whom the gas is taken is duty bound to see that the Indians get a market for the gas, despite state laws. The secretary has ordered Judge Ryan, his special representative and Commissioner Wright to investigate the matter.

Cornelly and Owen hope to bring the matter direct to the supreme court of the United States by getting the federal government to interfere with the state order. Judge Campbell holds that congress has not the right to set aside the acts of state legislatures, unless such acts are unconstitutional and that the only relief the defendants have is to get the supreme court to decide that the state has passed an act that is unconstitutional, and until that is done the injunction of the state courts stands.

Quick Work by Dan Cupid.

Quite a surprise was rendered our town on the 18th when the marriage of Miss Vera Carr to Morgan Milton Atkins took place. The ceremony was performed by Rev. G. W. Jefferson at the Tidwell hotel. The groom is well known here, and is well liked by all who know him, he is in the mercantile business in this town. He came here from Chickasha about two months ago. The bride is the beautiful and accomplished daughter of Mr. and Mrs. Carr of Ada, where she has a host of friends. She came to this town about a month ago to visit her cousin Mrs. F. J. Stubbs. Almost immediately upon the arrival of the couple met. It was a case of love at first sight. They are now at home at the Tidwell hotel, congratulations are now in order and the Record wishes them everlasting happiness.—Blanchard Record.

A SPLENDID WORK.

The Women's Trades Union of Illinois has arranged with the authorities at Ellis Island to receive in advance the names and destination of all immigrant girls coming alone to their state. The union has a staff of interpreters and visitors who will assist them in finding friends, boarding places, employment, etc.

IMPRESSIONS OF AMERICAN CHARITY.

A notable German philanthropist who has been investigating charitable and social institutions of the United States says: "The first point that strikes us as a contrast to what we observe in English settlement work is the large number of women settlement workers. They are so much in the majority that the number of men is almost negligible, appearing only supplementary. This is characteristic America. Generally speaking, the women are better educated than the men; besides, except those who make social work their profession, men devote far less time to matters of this kind than women do."

CIVIC LEAGUE WORK.

The Civic League of St. Louis, Mo., has recently completed an investigation of housing conditions in that city. The tenement problem is only beginning to be felt, but problems of overcrowding, cellar living, outbuildings, inadequate and inferior plumbing and ventilation were discovered. These can be met without great difficulty now if the people will bestir themselves. Each of our Southern cities should have a civic league for this work, and these conditions should be remedied in their beginning.

IN New York.

Miss Bennett and Mrs. MacDonnell are at present in New York, studying various phases of institutional work, especially the immigrant homes and settlement work among foreigners. Unless the railroad management increases, the road is tied up. The manufacturer must calculate the number of the machines by the driving power of the engines, and every enlargement must come in motive power. So we must develop in missionary work, and no small part of our task is to seize the strategic locations. We have number of strategic points in our Southland upon which we must move. Pray for our officers as they study these lines of work.

ROOSEVELT TO WHIP PARTY INTO ACTION

President Prepares Series of Messages Expected to Be Sensational.

Washington, Jan. 30.—With a cat o' nine tails the president will begin tomorrow to whip this party into wakefulness from the lethargy that has been imposed upon it by Speaker Cannon and those other leaders who have decreed that considerations of party welfare take precedence of the country's legislative needs.

A message which he will send to congress tomorrow will be the first of a series, all of them to spur to action. The president is not in sympathy with the stand-pat policy adopted by Speaker Cannon and other republican leaders. He wants the reforms which he urged at the beginning of the session enacted.

The argument that it would be perilous to the party on the eve of an election to undertake the large tasks submitted last December makes no appeal to him.

Either he does not agree with them as to what is expedient, or he has no regard for considerations of that kind.

Men who are probably well informed declare that these messages will make the most sensational series of papers ever written by the president.

Lawson Predicts.

Thomas W. Lawson, who seems to have got pretty good advance information of the caliber of the president's ammunition made these prescriptive messages the subject of daring advertisements in this morning's New York papers and the stock market, whether in dread of the messages themselves or in fright occasioned by Lawson's Jeremiah prophecy, was appreciably affected.

Whether so in themselves the circumstances and purposes of these messages must be regarded as sensational, especially if considered with respect to their possible consequences.

Already it is charged that in deciding to call the attention of the country to the recurrence of his party, the president is merely adopting an adroit method of insinuating that his continuance in office is essential to the accomplishment of his reform measures.

Whether this is so or not it is certain that in rebelling against the simplicity of his party's leaders the president will arouse more antagonism than has yet existed between him and them.

Meanwhile the Democrats have about resolved to espouse some of the more popular of the president's reform measures and to tam the republicans with their failure to enact them.

They will challenge the republicans to act on the recommendations of their own president.

It is known that Mr. Bryan is favorable to his course as a measure of party strategy. He is tonight in conference with Senator Culberson, John Sharp Williams, and Representative Clayton of Alabama, chairman of the democratic caucus in the house, and the result of this conference is likely to be a decision to press several of the measures recommended by the president so as to call the country's attention that they are Roosevelt, rather than republican policies.

This course was suggested at Senator Newlands' dinner Monday night, and the president, it is known, was promptly advised of what was suggested.

Whether his purpose to send these messages to congress was prompted by the councils of the democrats may be left to individual opinion.

MEMORIAL GOES TO CONGRESS.

Contest Over Control of Eastern Part of State School System Believed to Be Settled.

Guthrie, Ok., Jan. 31.—It is believed the contest between Superintendent Benedict of the Indian schools and Superintendent Cameron of the State Educational Department over the control of the school system in the eastern half of the state has been adjusted by the passage of a memorial to congress, which was sent to both houses of the legislature this afternoon by the governor.

Congress recently recommended an appropriation of \$150,000 for Indian Territory schools, manifesting an intention to continue the Interior Department's supervision for the next year or two.

It is stated that the memorial was agreed to by both superintendents this afternoon. Two hours later it was returned to the governor's office, having passed both houses of the legislature.

The memorial in effect makes a proposition to congress to continue so long as Indian funds and public moneys of the federal government are ap-

propriated for public schools, in what were the Five Civilized Indian Tribes outside of the incorporated towns, and for the purpose of uniformity in granting teachers' certificates, the state will add one member to the state board of education, who may be nominated by the secretary of the interior. Three members of the state board to examine applicants for common school certificates may be named by the secretary, also one member of the county examining boards in counties of what was Indian Territory.

It is proposed that under state authority, schools for the joint attendance of whites and Indians shall be maintained each year until the district tax levy and the per capita apportionment of state funds is exhausted, whereupon the superintendent, representing the secretary of the interior, shall assume control and conduct the school with the money allotted from the Indian funds and the federal government, so as to provide for at least eight months of school in each district. The state will appropriate the full per capita apportionment from the state funds, based on the scholastic population, and the federal government is to apportion to the districts where there are the allotted number of pupils, an amount from the Indian National funds equaling the per capita to be derived from the school district taxation and the state fund.

In view of the government's withholding allotments of lands for taxation, it is suggested in the memorial that the federal government appropriate \$2 per capita for the school children of all the districts outside the incorporated towns.

The memorial was sent to Washington tonight.

STATE WINS BOUT WITH NATURAL GAS OPERATORS

Muskogee, Okla., Jan. 30.—Judge Ralph Campbell today handed down a decision in the case of the state of Oklahoma vs. Connelly and Owen, in which the defendants were applicants to get to the federal courts the injunction brought against them by the state preventing them from piping natural gas out of the state into Kansas. The decision is that unless the supreme court of the United States holds otherwise, the state of Oklahoma can control its supply of natural gas and can prevent corporations or individuals from piping it out of the state.

This is one of the most important legal questions in the state. The first official act of Governor Haskell was to wire the sheriff and county attorney of Nowata county to prevent Connelly and Owen piping gas across the state line from their wells near Carey to consumers on the Kansas side. The district court of Nowata county followed the order with an injunction, and Connelly and Owen applied to have the injunction transferred to the federal courts where they hoped to have it dissolved. Connelly and Owen have taken the matter up with the secretary of the interior, representing that the government, as guardian of the Indians from whom the gas is taken is duty bound to see that the Indians get a market for the gas, despite state laws. The secretary has ordered Judge Ryan, his special representative and Commissioner Wright to investigate the matter.

Cornelly and Owen hope to bring the matter direct to the supreme court of the United States by getting the federal government to interfere with the state order. Judge Campbell holds that congress has not the right to set aside the acts of state legislatures, unless such acts are unconstitutional and that the only relief the defendants have is to get the supreme court to decide that the state has passed an act that is unconstitutional, and until that is done the injunction of the state courts stands.

Quick Work by Dan Cupid.

Quite a surprise was rendered our town on the 18th when the marriage of Miss Vera Carr to Morgan Milton Atkins took place. The ceremony was performed by Rev. G. W. Jefferson at the Tidwell hotel. The groom is well known here, and is well liked by all who know him, he is in the mercantile business in this town. He came here from Chickasha about two months ago. The bride is the beautiful and accomplished daughter of Mr. and Mrs. Carr of Ada, where she has a host of friends. She came to this town about a month ago to visit her cousin Mrs. F. J. Stubbs. Almost immediately upon the arrival of the couple met. It was a case of love at first sight. They are now at home at the Tidwell hotel, congratulations are now in order and the Record wishes them everlasting happiness.—Blanchard Record.

Published in the Interest of the Woman's Home Mission Society M. E. Church South. A SPLENDID WORK.

The Women's Trades Union of Illinois has arranged with the authorities at Ellis Island to receive in advance the names and destination of all immigrant girls coming alone to their state. The union has a staff of interpreters and visitors who will assist them in finding friends, boarding places, employment, etc.

IMPRESSIONS OF AMERICAN CHARITY.

A notable German philanthropist who has been investigating charitable and social institutions of the United States says: "The first point that strikes us as a contrast to what we observe in English settlement work is the large number of women settlement workers. They are so much in the majority that the number of men is almost negligible, appearing only supplementary. This is characteristic America. Generally speaking, the women are better educated than the men; besides, except those who make social work their profession, men devote far less time to matters of this kind than women do."

CIVIC LEAGUE WORK.

The Civic League of St. Louis, Mo., has recently completed an investigation of housing conditions in that city. The tenement problem is only beginning to be felt, but problems of overcrowding, cellar living, outbuildings, inadequate and inferior plumbing and ventilation were discovered. These can be met without great difficulty now if the people will bestir themselves. Each of our Southern cities should have a civic league for this work, and these conditions should be remedied in their beginning.

IN New York.

Miss Bennett and Mrs. MacDonnell are at present in New York, studying various phases of institutional work, especially the immigrant homes and settlement work among foreigners. Unless the railroad management increases, the road is tied up. The manufacturer must calculate the number of the machines by the driving power of the engines, and every enlargement must come in motive power. So we must develop in missionary work, and no small part of our task is to seize the strategic locations. We have number of strategic points in our Southland upon which we must move. Pray for our officers as they study these lines of work.

A GOOD RECORD.

Five out of eight of the heads of departments of Booker T. Washington's school are graduates of Methodist institutions.

TO PURCHASE ROAD?

Rumored that Oklahoma Road May Sell Track to Rock Island.

Chickasha Okla. Jan 30.—It was rumored here today that the Rock Island intended to purchase the track of the new Oklahoma Central road as soon as the track was completed from Purcell to Chickasha Six miles of track are to be laid

The substantiation for the story is the building of a Y by the Oklahoma Central to connect with the Rock Island and the unofficial announcement that the Oklahoma Central will use the Rock Island terminal facilities

The proposed route of the Oklahoma Central is from Atoka to Okfuskee through Ada and Purcell It crosses the eastern Rock Island from McAlester a few miles south of Coalgate The western terminus is in Chickasha on the Rock Island main line

WEST SAYS \$35,000 NEEDED.

Attorney General Mentions Report That Appropriation Will Be Cut.

Guthrie Ok Jan 30.—According to a statement made in the office of the Attorney General today he is in receipt of information that the appropriation asked for his department will be reduced by the legislature Mr West said

In order to transact the business of the people it will be absolutely necessary that I be given at least \$35,000 and in my opinion any one who opposes that even though unintentionally will be acting in the interest of people who are trying to despoil this state

appeal to the Well Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

Ring Watches Popular.

Swiss watchmakers are reported to be busy filling English and American orders for finger ring watches. The ring watch, though little seen, is no novelty. The manager of an old London watchmaking firm says that he saw them more than 14 years ago. Queen Victoria had three or four. The simplest ones—a plain gold ring with the watch inserted—cost about \$100, but with diamonds or other stones, \$5,000 to \$10,000 may be paid.

Made Him Nervous.

"What in the world is the matter, Harold?" anxiously inquired the pretty girl. "Why, you seem too nervous to sit down a minute."
"You'll have to pardon me," responded Harold Hatband, with an eye on the window, "but—er—I just saw your father prowling around with a bird gun."
"Oh, nonsense! Why, father likes you. Didn't I hear him say that you were good enough to eat?"
"H'm! That's just the reason why he might try to pepper me!"

BANISHED

Coffee Finally Had to Go.

The way some persons cling to coffee even after they know it is doing them harm, is a puzzle. But it is an easy matter to give it up for good, when Postum Food Coffee is properly made and used instead.

A girl writes: "Mother had been suffering with nervous headaches for seven weary years, but kept drinking coffee."

"One day I asked her why she did not give up coffee as a cousin of mine had done who had taken to Postum. But Mother was such a slave to coffee she thought it would be terrible to give it up."

"Finally, one day she made the change to Postum, and quickly her headaches disappeared. One morning while she was drinking Postum so freely and with such relish I asked for a taste."

"That started me on Postum and I now drink it more freely than I did coffee, which never comes into our house now."

"A girl friend of mine, one day, saw me drinking Postum and asked if it was coffee. I told her it was Postum and gave her some to take home, but forgot to tell her how to make it."

"The next day she said she did not see how I could drink Postum. I found she had made it like ordinary coffee. So I told her how to make it right and gave her a cupful I made, after boiling it fifteen minutes. She said she never drank any coffee that tasted so good, and now coffee is banished from both our homes." Name given by Postum Co., Battle Creek, Michigan.

Japanese Methods.

A grim story of Japanese ingenuity comes from the Island of Formosa, formerly Chinese territory, but now a possession of the Japanese, who are waging war against the savages of the interior. These are represented to be of the ferocious order, the head hunters variety of barbarians who are relentless in pursuit of enemies and to whom accordingly it is deemed useless to show mercy in time of hostilities. At least it is represented that very effective means have been taken to bring the savages to terms. As the story goes, whenever a band of the insurgents can be located a strong barbed wire fence is constructed all around the area, and is heavily charged with electricity. Then the Japanese troops advance, the head hunters falling back before them. The result is inevitable. If the savages face the Japanese they are killed by rifle fire. If they continue to flee until they bring up against the wire fence they are shocked to death by electricity. Certainly a few applications of that sort of medicine will be effective on the patient. Before such scientific warfare the occupation of the head hunter is gone. And if he persists the head hunter goes himself.

Revolutionists in Russia may be punished but not cured, and the aristocrats among them hold to their principles even more pertinaciously than do the representatives of lower classes. Dispatches record that Mme. Breshkovskaya, a woman 70 years old and one of the first aristocratic converts to the terrorist propaganda, has been cast into prison in St. Petersburg for distributing terrorist literature. She was sent to Siberia in the early seventies, but succeeded in escaping. The experience, however, only strengthened her revolutionary ideas. As in France in the time of the revolution, it is the fiery determination of the women that does much to keep the spirit of rebellion alive.

Princess Louise of Orleans was married to Prince Charles of Bourbon in England recently, in the presence of the king and queen of Spain and nearly 40 other members of royal families. She is the youngest daughter of the late Comte de Paris, who with his brother and uncle served on the staff of Gen. McClellan in the civil war in America. The count's history of the war has been translated into English, but he and his family have never stirred the national imagination as did Lafayette that other French man who fought with American troops.

They are shipping apples from Portland, Ore., to Vladivostok, Russia, on the opposite side of the Pacific, and the fruit brings \$7.50 per bushel. Of course the apples are carefully selected and packed, but the fact that such prices can be obtained fully warrants the trouble. When an American product as perishable as apples can be shipped 10,000 miles across the water and sold at a big profit it should be encouragement to try the same process with other articles. There are hundreds of things which the United States can supply, and the field is waiting to be improved.

There will be music in the air when the big battleship fleet is not engaged in naval practice. No less than 26 pianos with pianolas were taken along on the ships, having been furnished by private subscription for the delectation of officers and men. That gives at least one instrument to each ship, and some of the vessels will have two pianos with mechanical attachments. And as a full supply of both classic and popular music goes along there isn't a doubt that the boys will have some delightful times. The pianolas will play when the guns do not.

A recent chemical investigation by the New York health department discloses the pleasing intelligence that bologna sausage and liverwurst are all that they should be. Frankfurters are uncertain, however, because some of them are seasoned with borax or sulphite. In view of the doubt that was cast on these delicacies some months ago this information will be welcomed by would-be consumers whose faith was undermined. As for a little borax, there might be worse things in sausage!

Our navy certainly is a wonder. One hundred men from each of the battleships which paused at the Island of Trinidad were given shore leave and there were no brawls. Can other nations blame us for pointing with pride?

King Leopold has sent to New York for display a large collection of what are said to be very valuable and interesting exhibits from the Congo. It is reported that the exhibits are

WORK WEAKENS KIDNEYS.

The Experience of Mr. Woods is the Experience of Thousands of Others.

Bernard P. Woods of Jackson street, Lonaconing, Md., says: "Hard work and heavy lifting weakened my kidneys. I was tired every morning and my limbs stiff and sore. Dizzy spells and headaches were frequent, and the kidney secretions much disordered. This continued for fifteen years and until I began using Doan's Kidney Pills. Then I improved steadily until cured and naturally. I recommend them strongly."

Merely a Plain Statement

The principal was called before the school board. Professor 'Mentor,' said the president, 'Miss Squirming complains that she was grievously insulted by Mr. Dennis who visited her class last Friday. What do you know about it?' 'As you are aware, gentlemen,' explained the principal, 'Mr. Dennis is a poor man and the father of a very bad boy. This boy receives deserved punishment daily. Mr. Dennis simply told Miss Squirming that he couldn't afford to have her wear out his sons pants. It was a poor interpretation of a just protest.'

ITCHING HUMOR ON BOY

His Hands Were a Solid Mass, and Disease Spread All Over Body—Cured in 4 Days By Cuticura.

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Cuticura Ointment and anointed him with it. I did this every evening and in four nights he was entirely cured. Mrs. Frank Donahue, 208 Fremont St., Kokomo, Ind., Sept. 15, 1907."

Rather Equivocal.

Uncle Morton, an aged negro, who had been a slave in the days before the civil war, was a retainer in the household of an Atlanta family. He was something of a philosopher, and a good deal of a diplomat. One day the waitresses, two young mulattos, were chaffing him. "Uncle Morton," one of them said, "who do you like best, Belle or me?" The gray-headed negro looked first at one then at the other, and said with a tone of indecision: "It am too tedious to say."

A very stout person named Gray was asked why he stood in this way. "It is," he replied, "a matter of pride. For it makes me look taller, they say."

New Yorker Saw Beauty in Sign, Where Maiden Lady Could Not.

A party of tourists was being shown around Ciudad Juarez, the little Mexican town just across the Rio Grande from El Paso, Texas. Every one was delighted with its picturesqueness, and in particular a maiden lady, who went into raptures about each new sight.

"It is all so quaint," she said. "These adobe houses, the old church, the narrow streets, the little plaza, those dreadful looking men wearing sombreros, everything breathes the spirit of an old world civilization. It is so different from our United States." "That's so," assented a New York man who had been listening. "For instance, where in all the world could you find anything so antique, so full of inherent beauty, so charged, as that sign over there." He pointed toward a whitewashed mud house on whose exterior was painted

"BIGGEST BEER IN TOWN, 5c."

The woman eagerly turned to look. Then she froze the horrid man with a glance and did not speak to him again during the whole trip.

TO CURE A COUGH OR COLD.

Doctor's Prescription Checks an Acute Cold in a Day and Cures Chronic Coughs.

The following formula is a never failing remedy for coughs or colds.

Two ounces of glycerine, one half ounce of Concentrated oil of pine, one half pint of good whisky, mix and shake thoroughly each time and use in doses of a teaspoonful to a tablespoonful every four hours.

This, if followed up, will cure any cough that is curable or break up an acute cold in 24 hours. The ingredients all can be gotten at any drug store.

Concentrated oil of pine comes put up for medicinal uses only in half ounce vials sealed in tin screw top cases designed to protect it from heat and light. Other oils of pine are insoluble and are likely to produce nausea and cannot give the desired results.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its great or strength than other makes.

A very dapper looking young man entered a Chicago hotel a few days ago, followed by a middle aged man who seemed to be just a little careless concerning his personal appearance. When he had stepped aside the other man reached for the pen and under Mr. Tyler's name wrote, "John Smith MDCCLXXIX."

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

This woman says that sick women should not fail to try Lydia E. Pinkham's Vegetable Compound as she did.

Mrs. A. Gregory, of 2355 Lawrence St., Denver, Col., writes to Mrs. Pinkham:

"I was practically an invalid for six years, on account of female troubles. I underwent an operation by the doctor's advice, but in a few months I was worse than before. A friend advised Lydia E. Pinkham's Vegetable Compound and it restored me to perfect health, such as I have not enjoyed in many years. Any woman suffering as I did with backache, bearing-down pains, and periodic pains, should not fail to use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

appeal to the Well Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

Ring Watches Popular.

Swiss watchmakers are reported to be busy filling English and American orders for finger ring watches. The ring watch, though little seen, is no novelty. The manager of an old London watchmaking firm says that he saw them more than 14 years ago. Queen Victoria had three or four. The simplest ones—a plain gold ring with the watch inserted—cost about \$100, but with diamonds or other stones, \$5,000 to \$10,000 may be paid.

Made Him Nervous.

"What in the world is the matter, Harold?" anxiously inquired the pretty girl. "Why, you seem too nervous to sit down a minute."
"You'll have to pardon me," responded Harold Hatband, with an eye on the window, "but—er—I just saw your father prowling around with a bird gun."
"Oh, nonsense! Why, father likes you. Didn't I hear him say that you were good enough to eat?"
"H'm! That's just the reason why he might try to pepper me!"

BANISHED

Coffee Finally Had to Go.

The way some persons cling to coffee even after they know it is doing them harm, is a puzzle. But it is an easy matter to give it up for good, when Postum Food Coffee is properly made and used instead.

A girl writes: "Mother had been suffering with nervous headaches for seven weary years, but kept drinking coffee."

"One day I asked her why she did not give up coffee as a cousin of mine had done who had taken to Postum. But Mother was such a slave to coffee she thought it would be terrible to give it up."

"Finally, one day she made the change to Postum, and quickly her headaches disappeared. One morning while she was drinking Postum so freely and with such relish I asked for a taste."

"That started me on Postum and I now drink it more freely than I did coffee, which never comes into our house now."

"A girl friend of mine, one day, saw me drinking Postum and asked if it was coffee. I told her it was Postum and gave her some to take home, but forgot to tell her how to make it."

"The next day she said she did not see how I could drink Postum. I found she had made it like ordinary coffee. So I told her how to make it right and gave her a cupful I made, after boiling it fifteen minutes. She said she never drank any coffee that tasted so good, and now coffee is banished from both our homes." Name given by Postum Co., Battle Creek, Michigan.

Japanese Methods.

A grim story of Japanese ingenuity comes from the Island of Formosa, formerly Chinese territory, but now a possession of the Japanese, who are waging war against the savages of the interior. These are represented to be of the ferocious order, the head hunters variety of barbarians who are relentless in pursuit of enemies and to whom accordingly it is deemed useless to show mercy in time of hostilities. At least it is represented that very effective means have been taken to bring the savages to terms. As the story goes, whenever a band of the insurgents can be located a strong barbed wire fence is constructed all around the area, and is heavily charged with electricity. Then the Japanese troops advance, the head hunters falling back before them. The result is inevitable. If the savages face the Japanese they are killed by rifle fire. If they continue to flee until they bring up against the wire fence they are shocked to death by electricity. Certainly a few applications of that sort of medicine will be effective on the patient. Before such scientific warfare the occupation of the head hunter is gone. And if he persists the head hunter goes himself.

Revolutionists in Russia may be punished but not cured, and the aristocrats among them hold to their principles even more pertinaciously than do the representatives of lower classes. Dispatches record that Mme. Breshkovskaya, a woman 70 years old and one of the first aristocratic converts to the terrorist propaganda, has been cast into prison in St. Petersburg for distributing terrorist literature. She was sent to Siberia in the early seventies, but succeeded in escaping. The experience, however, only strengthened her revolutionary ideas. As in France in the time of the revolution, it is the fiery determination of the women that does much to keep the spirit of rebellion alive.

Princess Louise of Orleans was married to Prince Charles of Bourbon in England recently, in the presence of the king and queen of Spain and nearly 40 other members of royal families. She is the youngest daughter of the late Comte de Paris, who with his brother and uncle served on the staff of Gen. McClellan in the civil war in America. The count's history of the war has been translated into English, but he and his family have never stirred the national imagination as did Lafayette that other French man who fought with American troops.

They are shipping apples from Portland, Ore., to Vladivostok, Russia, on the opposite side of the Pacific, and the fruit brings \$7.50 per bushel. Of course the apples are carefully selected and packed, but the fact that such prices can be obtained fully warrants the trouble. When an American product as perishable as apples can be shipped 10,000 miles across the water and sold at a big profit it should be encouragement to try the same process with other articles. There are hundreds of things which the United States can supply, and the field is waiting to be improved.

There will be music in the air when the big battleship fleet is not engaged in naval practice. No less than 26 pianos with pianolas were taken along on the ships, having been furnished by private subscription for the delectation of officers and men. That gives at least one instrument to each ship, and some of the vessels will have two pianos with mechanical attachments. And as a full supply of both classic and popular music goes along there isn't a doubt that the boys will have some delightful times. The pianolas will play when the guns do not.

A recent chemical investigation by the New York health department discloses the pleasing intelligence that bologna sausage and liverwurst are all that they should be. Frankfurters are uncertain, however, because some of them are seasoned with borax or sulphite. In view of the doubt that was cast on these delicacies some months ago this information will be welcomed by would-be consumers whose faith was undermined. As for a little borax, there might be worse things in sausage!

Our navy certainly is a wonder. One hundred men from each of the battleships which paused at the Island of Trinidad were given shore leave and there were no brawls. Can other nations blame us for pointing with pride?

WORK WEAKENS KIDNEYS.

The Experience of Mr. Woods is the Experience of Thousands of Others.

Bernard P. Woods of Jackson street, Lonaconing, Md., says: "Hard work and heavy lifting weakened my kidneys. I was tired every morning and my limbs stiff and sore. Dizzy spells and headaches were frequent, and the kidney secretions much disordered."

This continued for fifteen years and until I began using Doan's Kidney Pills. Then I improved steadily until cured and naturally, I recommend them strongly."

Merely a Plain Statement

The principal was called before the school board. Professor 'Mentor,' said the president, 'Miss Squirming complains that she was grievously insulted by Mr. Dennis who visited her class last Friday. What do you know about it?' 'As you are aware, gentlemen,' explained the principal, 'Mr. Dennis is a poor man and the father of a very bad boy. This boy receives deserved punishment daily. Mr. Dennis simply told Miss Squirming that he couldn't afford to have her wear out his sons pants. It was a poor interpretation of a just protest.'

ITCHING HUMOR ON BOY

His Hands Were a Solid Mass, and Disease Spread All Over Body—Cured in 4 Days By Cuticura.

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Cuticura Ointment and anointed him with it. I did this every evening and in four nights he was entirely cured. Mrs. Frank Donahue, 208 Fremont St., Kokomo, Ind., Sept. 16, 1907."

Rather Equivocal.

Uncle Morton, an aged negro, who had been a slave in the days before the civil war, was a retainer in the household of an Atlanta family. He was something of a philosopher, and a good deal of a diplomat. One day the waitresses, two young mulattos, were chaffing him. "Uncle Morton," one of them said, "who do you like best, Belle or me?" The gray-headed negro looked first at one then at the other, and said with a tone of indecision: "It am too tedious to say."

A very stout person named Gray was asked why he stood in this way. "It is," he replied, "a matter of pride. For it makes me look taller, they say."

REMINDED HIM OF HOME.

New Yorker Saw Beauty in Sign, Where Maiden Lady Could Not.

A party of tourists was being shown around Ciudad Juarez, the little Mexican town just across the Rio Grande from El Paso, Texas. Every one was delighted with its picturesqueness, and in particular a maiden lady, who went into raptures about each new sight.

"It is all so quaint," she said. "These adobe houses, the old church, the narrow streets, the little plaza, those dreadful looking men wearing sombreros, everything breathes the spirit of an old world civilization. It is so different from our United States."

"That's so," assented a New York man who had been listening. "For instance, where in all the world could you find anything so antique, so full of inherent beauty, so charged, as that sign over there." He pointed toward a whitewashed mud house on whose exterior was painted

"BIGGEST BEER IN TOWN, 5c."

The woman eagerly turned to look. Then she froze the horrid man with a glance and did not speak to him again during the whole trip.

TO CURE A COUGH OR COLD.

Doctor's Prescription Checks an Acute Cold in a Day and Cures Chronic Coughs.

The following formula is a never failing remedy for coughs or colds.

Two ounces of glycerine, one half ounce of Concentrated oil of pine, one half pint of good whisky, mix and shake thoroughly each time and use in doses of a teaspoonful to a tablespoonful every four hours.

This, if followed up, will cure any cough that is curable or break up an acute cold in 24 hours. The ingredients all can be gotten at any drug store.

Concentrated oil of pine comes put up for medicinal uses only in half ounce vials sealed in tin screw top cases designed to protect it from heat and light. Other oils of pine are insoluble and are likely to produce nausea and cannot give the desired results.

This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its great or strength than other makes.

A very dapper looking young man entered a Chicago hotel a few days ago, followed by a middle aged man who seemed to be just a little careless concerning his personal appearance. The affable clerk offered a pen to the carefully dressed young gentleman, who registered himself as "William Henry Tyler III." When he had stepped aside the other man reached for the pen and under Mr. Tyler's name wrote, "John Smith MDCCLXXIX."

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

This woman says that sick women should not fail to try Lydia E. Pinkham's Vegetable Compound as she did.

Mrs. A. Gregory, of 2355 Lawrence St., Denver, Col., writes to Mrs. Pinkham:

"I was practically an invalid for six years, on account of female troubles. I underwent an operation by the doctor's advice, but in a few months I was worse than before. A friend advised Lydia E. Pinkham's Vegetable Compound and it restored me to perfect health, such as I have not enjoyed in many years. Any woman suffering as I did with backache, bearing-down pains, and periodic pains, should not fail to use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?
